Workshop Council Meeting Minutes

Held: City owned property starting at the Entrance and area north,
which is adjacent to Monroe Street.

Time: 9:00 a.m.

This walking workshop was for the Council members to see first-hand the condition of the land owned by the city. Discussion followed with ideas and suggestions of what might be done by the City to clean up this area.

Roll Call

Present: Jeff Jackson, Butch Neel, Jennalee Boggs, and Greig Sims

Guests: Peggy Williford, Randy Miller, Kim Swafford, David Swafford, and
Donna Zwick

Discussion:

1. A land survey will need to be completed before clean-up can occur in order to confirm the boundaries of the land owned by the City.
2. The water district personnel will need to be contacted to get permission to extend clean-up of the area just west of The Highland's sign. The council would like to extend the clean-up west of the sign to complement the landscaping being planned for the entrance.
3. North of the entrance there is an enormous amount of dead wood, trash, brush, and trees to be removed along with possible dirt work to level out to allow proper drainage.
4. A question was raised (by a guest present) about any planned city-wide trash clean-up that might need to take place prior to the June 6 Bicycle Ride.

Meeting adjourned at 10:15 a.m.
