II.   Purpose of this meeting
This is a special (workshop) meeting of the governing body for the purpose of developing goals for the 2024 year for the City of The Highlands.

III. Discussion
Developed goals that would assist in implementing a grant process for future projects of the City.

IV.   Recommendations/Plan
A. Hire an engineer to confirm elevations, GPS markers, and any other items that will assist in the continuing development of drainage and road improvements.
   ▪ Jeff Jackson will contact the engineer from Kansas Association of Counties as suggested by Kristen Zimmerman, PEC, at the first February council meeting.

B. Monroe Street – Grant Township is working on improving the drainage situation. Working with an engineer will help in making sure that the proper steps are being taken at the appropriate time during this project.

C. Will pursue purchasing Lot 120 from the Hovious Trust which would allow for establishment of a rock road to tie into Hendricks and 108th for a safety exit on the north and west side of The Highlands. Once the engineer's report has been completed, can begin work on building an exit road, possibly from Wildwood to Hendricks. Reno County has stated they would maintain 108th and Grant Township will maintain Hendricks in this vicinity.

- Jeff Jackson will follow-up with the owner of this lot to determine purchase price.

D. Overall drainage projects in the City – driveways without culverts can impact the drainage in certain areas.

V. **Adjournment** - 7:12 p.m.
- ➢ Christie Gardner made motion to adjourn; Jeff Jackson seconded; motion carried unanimously.
